

Creating Your Future: *Careers in Energy Services*

*Do you like to work with your hands?
Are you considering a career in the trades?
We can help make your plan a reality.*

This 8-session workshop will explore career opportunities in the growing field of energy services. We will focus on the new KVCC Energy Services and Technology program. The KVCC Associate in Applied Science Degree program is the first of its kind in Maine to offer plumbing, heating, ventilation, cooling systems, solid fuel, geothermal, and solar heating in one comprehensive program.

Identify your skills and interests, review your experiences, and explore the education needed to build your own career pathway in energy services. Meet local employers, workers in the field, and local education providers who will help you create a plan for your future.

When: Mondays, March 4 – April 29, 2013
(no class on April 15)
Time: 5:30 – 8:30 p.m.
Where: Lawrence Adult Education in Fairfield

For more information or to schedule an orientation meeting, please contact Jean Dempster at 621-3434 or email dempster@maine.edu.

Class is open to both women and men.
