

You are invited to attend a USM Corporate Partners new year's tradition -- Breakfast with Charlie Colgan: Maine's 2013 Economic Forecast.

Charlie will share his economic forecast for Maine, the region, and the nation by looking at the data, the trends, and the economic climate here and around the world. He will review his forecast for 2012 - what was right and not so right - and share the outlook for 2013. Join us for a relevant and engaging presentation at this year's Breakfast with Charlie.

In light of the economic climate, we are extending the event to 9:30 a.m. to allow more time for questions and comments.

This event is free and open to the public so be sure to bring your colleagues, clients, vendors, and even students.

Pass this along by using our "Forward to a Friend" link at the bottom of this e-mail.

If you would like to listen to the 2012 forecast visit the Muskie School of Public Service [audio archive](#) to see if you think he got it right!

For more information, please contact [Betsy Uhuad](#) in the Office of University Advancement.
